WHO WE ARE

East London Metal Engineering Ltd

Bespoke Metalwork. Built in London. Trusted Across England.

At East London Metal Engineering Ltd, we provide custom metal fabrication solutions with precision, durability, and style. With our in-house factory based in London, we control every stage of production; from design and fabrication to installation and aftercare; ensuring consistency, quality, and faster delivery for our clients.

We proudly serve residential, commercial, and industrial sectors, delivering metalwork that is strong, functional, and visually striking.

Our Vision

To be a leading name in England's metal engineering industry, known for quality, innovation, and reliable service. We aim to deliver products that not only perform but also stand the test of time.

Our Mission

- . Provide innovative designs backed by expert craftsmanship
- . Offer complete solutions from design to installation
- . Deliver on time and on budget without compromise on quality
- . Build trust through professional service and long-term support

Who We Serve

Our clients include homeowners, businesses, developers, contractors, restaurants, and industrial operators across England.

We are also proud to serve the Bangladeshi community in England, offering bespoke metal solutions for residential and commercial projects within the community.

Why Choose Us:

We deliver expert metal design and high-quality fabrication on time and at a fair price. Specialising in bespoke architectural metalwork across England, we provide complete solutions for gates, railings, staircases, and more—with reliability and craftsmanship you can trust.

Site Survey & Design Presentatio

We provide detailed site surveys, 2D drawings, and 3D visualizations to bring your project to life before fabrication begins. This ensures accuracy, clarity, and a design you can fully approve.

Expert Craftsmanship

Our skilled team combines 15 years+ of hands-on experience with modern techniques to deliver high-quality, bespoke metalwork that meets the highest standards.

Smart Technology

We specialize in automated sliding and swing gates that can be easily controlled via a mobile app, connected through Wi-Fi. This modern technology adds convenience, security, and efficiency to your property.

Quality and Reliability

Our products have double powder-coated finishing for extra durability. We use accurate cutting and welding to BS EN standards & carefully checked to ensure top quality and on time and at a fair price.

Maintenance Service

We offer ongoing support and maintenance services to keep your metalwork in perfect condition, extending its lifespan and ensuring continued safety and performance.

Our Strength That Make Us Unique:

Skilled Team: Experienced designer, fabricators, and welders trained to UK standards.

Design Excellence: Creative and practical solutions tailored to each client's vision.

Fabrication & Production Capability: Advanced machinery, CNC cutting, precision welding, and double powder-coated finishing for durability.

Project Management: End-to-end handling, from design to installation, ensuring projects are delivered on time.

Quality & Compliance: Work carried out to BS EN standards, with strict inspections and safety checks.

Customer Focus: Bespoke solutions that balance performance, aesthetics, and cost-effectiveness
